Revision to the Rules Applying to Dog Shows

By Judging Operations on December 21, 2018

The Delegates at the December 2018 meeting approved a revision to **Chapter 16 Section 1** of the *Rules Applying to Dog Shows*. This revision, which relates to the calculation of points for Best of Winners, is **effective January 1, 2019**. The revised rule provides a provision where a single point may be earned by the dog awarded Best of Winners if neither sex had sufficient dogs in competition to qualify for one point for its breed in the region the show was held.

The revised paragraph 5 of **Chapter 16 Section 1** will read as follows:

The dog awarded the Best of Winners shall be credited with the number of points calculated for Winners Dog or Winners Bitch, whichever is greater. If no points are credited to the dog awarded Best of Winners, the regular class dogs of both sexes shall be counted in calculating championship points. A maximum of one championship point can be awarded when combining sexes for the Best of Winners point calculation.

In Summary:

- The championship criteria remains unchanged
- The sexes may only be combined if there is not a point available in both sexes.
- The combination of animals has to be compared to the applicable point schedule to determine if a point was earned.

To explain, when neither sex has sufficient entry for one point, Best of Winners will now earn one point if the sum of the class dogs and class bitches equals or exceeds the number required for one point in the breed for that sex in the region the show was held.
